

ColorGage™ Target System for Red, Green or Blue Laser Light

Used with the LX Series Sheave Alignment System

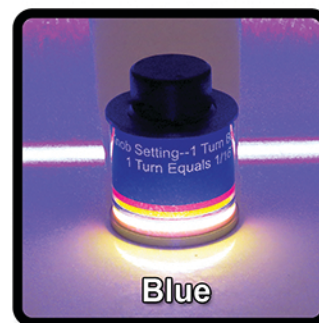

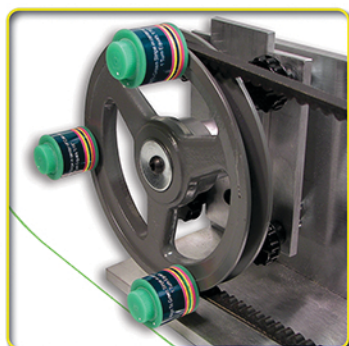

Can be seen
in direct sunlight

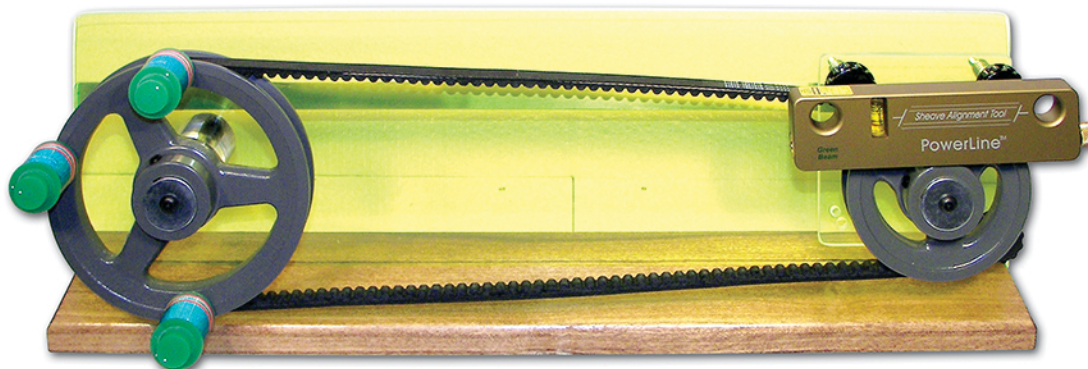

ColorGage™ alignment targets use enhanced reflective and fluorescent technology so that the laser adjustment lines can be viewed in direct sunlight. This means that sheaves, belts and motors can be positioned faster and with improved accuracy.

Brighter viewing
on reflective film

Superior Line
Brightness

Shown with the GL80 Green Laser Technology™ Sheave Alignment Laser and ColorGage™ Target System

Use this trainer to understand sheave alignment and reduce drive belt, sheave and bearing wear.

Model GL80 Sheave Alignment Trainer

- Reduces Downtime • Lowers Operating Costs • Repairs Equipment Faster
- Lowers training Costs • Promotes Laser Alignments
