## L50XP Laser Micro Level™

Maximum 4.9 milliwatts of collimated laser energy at 635 nanometers. This means that the L50XP can be seen in direct sunlight and will shoot over 500 feet!

The L50XP can be used as a precision pocket level, torpedo level and super bright laser platform. Optional Line Generator lens can be built-in and the L50XP will fit into your pocket or tool belt too!

6mm x 2mm beam size

Fits all accessories:

- Use with AP90C Beam Bender™, AP180C Beam Spreader™ for right angle layouts and "Laser Chalk Lines".
- Precision Level Vial - Horizontal Vial shows when laser beam is level within  $\pm 1/8"$  @ 100 ft.
- Plumb and 45° angle vials included.
