

LASER
TOOLS CO., INC.

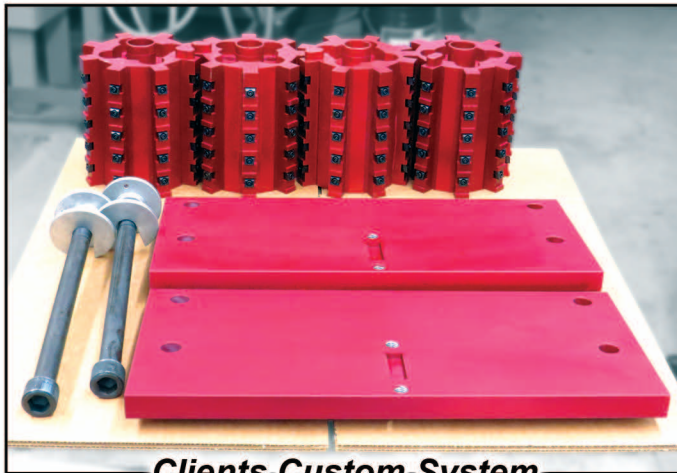

**“Let Us
Make Your
Fixtures”**

The GRAVESTONE™ Quick Change Fixturing System

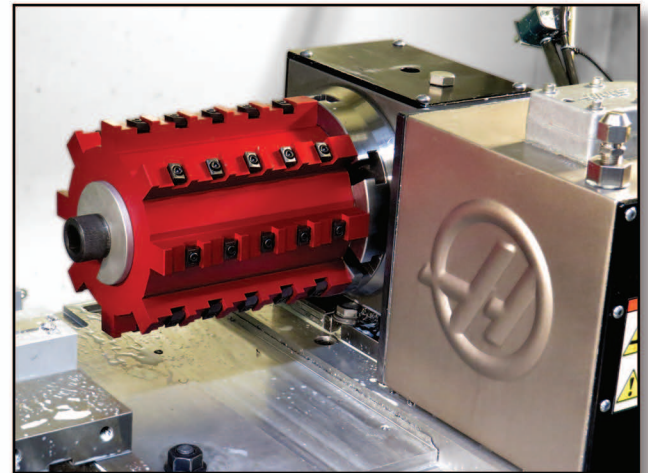

The GRAVESTONE™ work holding fixture is comparable to a horizontal milling center tombstone and fits any Haas HRT 160mm rotary platter. Increase productivity compared to conventional vertical milling center work holding methods. These fixtures are constructed of 7075-T6 aluminum and are available as a “DIY” template or a custom solution tailored to your needs.

“DIY” Template Ø6.5in x 7.5in

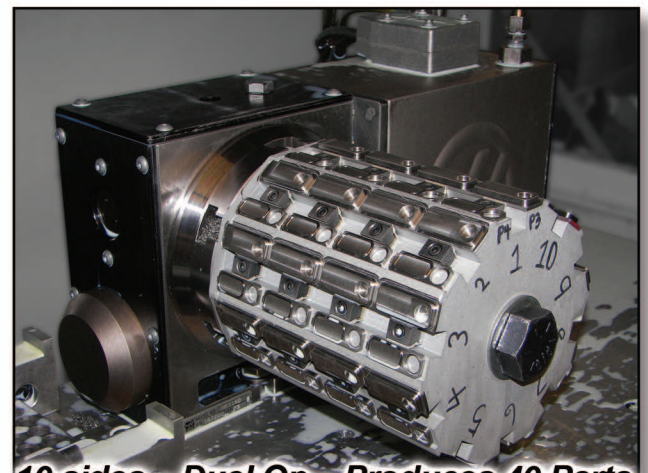

Clients Custom System

“What This Means To You”

- **Unattended Operation**
Maximize profitability.
Lower lead times.
- **Reduced Tool Changes & Minimum Part Swapping**
“Keeps the chips flying.”
- **Light Weight**
Easy to handle, no assistance needed.
- **Wear Resistant Hard Anodizing Available**
Extends the life of your investment.
- **Allows Operators to perform other tasks**
Operate Multiple Machines, Deburr, etc.
